

RISHABH NANDAN

IT & Data Support | Data Analytics | Technical Support | Admission Portal Operations | Web Development

Phone: +91-8317035123 | Email: rishabhnnandan789@gmail.com | Prayagraj, Uttar Pradesh

PROFESSIONAL SUMMARY

B.C.A. Data Science student with practical experience in IT support, data management, admission portal operations, student assistance, and administrative coordination. Skilled in Python, MySQL, Excel, HTML, CSS, TypeScript, and data entry. Experienced in supporting online admission processes, handling student data, resolving portal-related issues, and preparing digital records. Seeking entry-level opportunities in Data Analytics, IT Support, Data Operations, Technical Support, Software/Application Support, Web Development, and other computer-related roles.

PROFESSIONAL EXPERIENCE

C.M.P. Degree College — IT, Data & Admission Support

July 2024 – Present | Prayagraj, Uttar Pradesh

- Manage and support day-to-day college admission portal operations.
- Assist students with online applications, login issues, counselling, document uploads, fee-related queries, and admission processes.
- Perform student data entry, data verification, data cleaning, record management, and Excel-based data processing.
- Prepare, organize, filter, and maintain student and admission data using Microsoft Excel.
- Assist in resolving technical and portal-related issues faced by students and administrative staff.
- Coordinate with departments for admission, student support, data processing, and administrative activities.
- Provide technical assistance for routine computer, software, portal, and digital-workflow related tasks.
- Support preparation and management of digital records, reports, lists, and admission-related information.

INTERNSHIP EXPERIENCE

LetsUpgrade — Campus Ambassador Intern

January 2024 – January 2025

- Worked as a Campus Ambassador and developed practical exposure to technology and professional communication.
- Gained hands-on exposure to HTML, CSS, Python, and Excel.
- Developed communication, teamwork, problem-solving, and coordination skills.
- Participated in technology-oriented activities and interacted with students and professional communities.

PROJECTS

Car Inspection Web Application | February 2025 – March 2026

Designed a digital vehicle inspection workflow with role-based access for Super Admin, Admin, and Workers/Inspectors. Included vehicle registration, inspection-data management, image capture, and an Under Review workflow. Proposed AI and Computer Vision integration for identifying visible vehicle issues such as scratches, dents, cracks, and paint damage.

Concepts: HTML, CSS, Web Application, Artificial Intelligence, Computer Vision

E-Commerce Website | February 2025 – April 2025

Developed an e-commerce website using HTML and CSS, applying front-end development concepts to create user-facing web pages.
